Frontend Developer with 1+ years of experience building responsive and scalable web applications using React.js, HTML, CSS, Tailwind, Bootstrap, and Ant Design. I specialize in creating clean, user-friendly interfaces and optimizing UI performance for better speed and usability. I also have basic knowledge of API integration and work closely with team members to ensure smooth project delivery and maintain high-quality standards.

Professional Experience

Silico Software Solutions Front End Intern

01/2024 - 07/2024

- Learned and applied HTML, CSS, JavaScript, and React.js to develop responsive web pages
- Gained hands-on experience with Git and GitLab for version control.
- Worked closely with team members to implement UI designs effectively and ensure responsive layouts
- Built multiple practice projects during training, applying frontend concepts to real-world scenarios and strengthening development skills.

White Orange Software Frontend Developer

08/2024 - present

- Leading frontend development for admin dashboards: MatchPoint (Tennis League Management) and CJS (Local Services Management).
- Built responsive, scalable, and user-friendly interfaces using React.js, HTML, Module CSS, and Ant Design.
- Collaborated with backend team on API structure discussions and integration planning to ensure smooth data flow.
- Worked closely with design and backend teams to deliver high-quality, production-ready dashboards.
- Actively involved in feature planning, debugging, and improving overall user experience.

Education

Gujarat technological University

06/2020 - 01/2025

Bachelor Of Engineering – 9.25

- BE in Computer Engineering from Gujarat Technological University.

Projects

Matchpoint Admin

01/2025 - 06/2025

- Developed responsive and user-friendly admin dashboard for managing players, matches, and league data using React.js.
- Managed match scheduling, player matchups, results, upcoming fixtures, and dynamic point tables.
- Built reusable components and implemented forms & tables using Ant Design, ensuring efficient data handling and smooth performance.
- Collaborated with backend team on API structure discussions, and contributed to debugging and UI/UX improvements.

Annakoot Admin Panel

06/2025 - 11/2025

- Developed a scalable admin dashboard using React.js, Ant Design, and Swiper.js, utilizing pre-built components like Drawer, Modal, Sidebar, Tables, Tabs, Popups, etc. for efficient UI development.
- Built reusable and production-ready components, ensuring consistent design system and smooth user interactions across modules.
- Ensured responsive design, optimized performance, and clean scalable code structure for real-world applications.

Birth & Brodo

02/2026 – 03/2026

- Developed a modern, responsive landing page for a postpartum meal service platform using Next.js, Tailwind CSS, and React.js, focusing on user-centric design and smooth user experience.created clean UI and mobile-friendly design.
- Crafted the UI by analyzing and recreating designs from reference websites and building a pixel-perfect layout.
- Integrated advanced UI interactions including GSAP-based cursor animations and React Smooth Scroll for seamless navigation, enhancing overall engagement and interactivity.
- Optimized performance and responsiveness across devices, ensuring fast load times, clean layout structure, and accessibility-friendly design practices.

LockBizz

11/2025 - Present

- Developed a multi-role business platform (Admin, Dispatcher, Technician) using React.js, Ant Design, and CSS Modules, handling workflows for job creation, categorization (Residential, Commercial, Automotive, etc.), and assignment.
- Translated Figma designs into pixel-perfect, responsive UI, and collaborated with team to define application workflow and user interactions.
- Worked closely with backend and testing teams on API structure discussions, data flow planning, and bug resolution, ensuring smooth implementation and stable performance.

Key Skills

- Frontend :- React.js, JavaScript, HTML, CSS, Tailwind CSS, Bootstrap , ant design.
- UI/UX :- Figma, Responsive Design, Cross-Browser Compatibility.
- Tools & Version Control :- Git, GitHub, GitLab, VS Code

Interests

- Traveling and Exploring New Places.
- Learning New Technologies.
- Problem Solving.
- Cricket & Team Sports.
